

**REPORT ON THE SUMMER SYMPOSIUM
IN REAL ANALYSIS XX
UNIVERSITY OF WINDSOR
WINDSOR, ONTARIO
JUNE 19 – 23, 1996**

The Twentieth Summer Symposium in Real Analysis was held June 19 – 23, 1996 at the University of Windsor, Windsor, Ontario, Canada. The conference was masterfully organized and conducted by Professors Harold Atkinson and Tim Traynor of the University of Windsor, and the editorial board of the **Exchange** wishes to take this opportunity to acknowledge their excellent and tireless work. First year mathematics student, Chris Wisdom, from Windsor is also to be thanked for the numerous ways in which he assisted participants during the conference. Thanks to Peter Stevens of the University of Windsor Computer Services for setting up the handy computer system, which was fully utilized during every coffee break and noon hour. Kudos also to Tim and Harold's wives, Maria Pap and Mary Atkinson, for their countless gestures of Canadian hospitality.

The organizers spiced up the nonworking hours with a delightful list of restaurant recommendations, hikes, tours, a party at the Atkinsons', which tested the dietary willpower of every participant, and the traditional closing banquet, at which the most anticipated moment was the announcement by the organizers that this year's recipient of the **ANDY** is

Hans Heinig.

The conference featured invited hour addresses by:

JACK BROWN (*Auburn*)
RUSSELL GORDON (*Walla Walla*)
PAUL HUMKE (*Northfield*)
ALEXANDER OLEVSKIĬ (*Tel Aviv*)
S. JAMES TAYLOR (*Charlottesville*)

as well as thirty twenty-minute contributed talks.
