

Installing RStudio

Install R before installing RStudio!

1. Go to <https://www.rstudio.com/products/rstudio/download/>
2. Click on Download under RStudio Desktop (the free one).
 - Don't download RStudio Server.
3. Under **Installers for Supported Platforms**, click the link for your operating system to download RStudio.
4. If Mac:
 - Save the .dmg file, double click to open, drag and drop to the applications folder.
5. If Windows:
 - Save the .exe file, run the file and follow the installation instructions.
