Before purchasing tires, make sure to use our Tire Finder to select the right fit for your vehicle.

The Scorpion AS Plus 3 is Pirelli's new, completely redesigned Touring All Season tire for crossovers, sport utility vehicles, and pick-up trucks. Part of Pirelli's PLUS Line of products, the Scorpion AS Plus 3 is designed to better meet the needs of drivers in the North American market. It sports a new tread pattern, compound and construction yielding outstanding mileage, enhanced performance, improved wet/dry handling, and increased comfort with a quieter ride compared to its previous generation.

More Mileage
Innovative tread compound designed to go the extra mile while delivering all-season performance.

Confident Control
Full-depth tread sipes that work from the first mile to the last mile for improved traction, handling, and braking.

3D Technology
3D sipe technology that work together with the tread pattern to delivery confident handling, dry or wet.

**PLEASE READ IMPORTANT INFORMATION BELOW AND
ON REVERSE DISCLAIMER & ACKNOWLEDGEMENT**

I authorize the stated service completion and give permission to operate the vehicle

1. Sam's Club is not responsible for loss/damage to the vehicle or items left in it.
2. When performing tire services or non-tire related services such as battery, wiper, or any other services, Sam's Club does not perform any tire inspections other than those indicated on this Service Order. Unless indicated on this Service Order, Sam's Club associates do not inspect the spare tire, if any.
3. Members should follow vehicle and tire owner's manuals guidance and frequently check tires for proper inflation pressure, tread depth (more than 2/32** in all grooves) and conditions like tire age, cuts, pressure, cracking, bulges and uneven tread wear.

Driving conditions and vehicle operation may affect the safety and performance of my tires

I have read, understand and accept all provisions of the disclaimer and acknowledgement above and the warranty statement on the reverse covering parts and service on this vehicle.

2024-07-18

WHAT IS COVERED (Manufacturer's Warranty)

1. Workmanship and Materials

The passenger or light truck tires purchased from Sam's Club, used in normal service on the vehicle on which they were originally installed, are covered by the manufacturer's limited warranty against defects in workmanship and materials for the life of the original usable tread or for the timeframe specified by the tire manufacturer, whichever comes first. At that time, all warranties, express or implied, are terminated. The life of the original usable tread is the original tread down to the level of the treadwear indicators — 2/32nds of an inch of tread remaining. Date of purchase is documented by the tire sales service work order. If there is no proof of purchase date, coverage will be based on date of manufacture. Replacement will be made in accordance with the terms and conditions described below in the "How Replacement Charges Are Calculated" section. Tire installation package charges are applicable on the replacement product.

2. Treadwear

If, within the warranty timeframe specified by the tire manufacturer, the tire wears evenly across the tread, down to the treadwear indicators (2/32nds of an inch of tread remaining), before providing the warranted miles of service as indicated by the vehicle odometer, it will be replaced with a comparable new Sam's Club tire for a pro-rata charge based on mileage received as described below in the "How Replacement Charges Are Calculated" section. Tire installation package charges are applicable on the replacement product.

WHAT IS NOT COVERED (Manufacturer's Warranty)

Tires which become unserviceable due to:

- Road hazard injury (e.g., a cut, snag, bruise, impact break or puncture, whether repairable or not) [Refer to Premium Tire Installation Package section for Road Hazard Protection information]
- Incorrect mounting of the tire, tire/wheel imbalance or improper repair
- Under-inflation wear, over-inflation wear, improper maintenance (including, but not limited to, failure to follow rotation recommendations as outlined in the vehicle owner's manual or the tire manufacturer's limited warranty terms), or other abuse
- Mechanical irregularity in the vehicle such as wheel misalignment or suspension issues resulting in uneven or rapid wear
- Accident, fire, chemical corrosion, tire alteration or vandalism
- Use in commercial service for tread life
- Premature wear out due to uneven wear (a tread groove difference of 2/32nds of an inch or more on the same tire)

HOW REPLACEMENT CHARGES ARE CALCULATED

1. Workmanship and Materials

A tire which becomes unserviceable due to a condition covered under the workmanship and materials limited warranty will be replaced with a comparable new tire, free of charge, when 2/32nds of an inch or less of the original tread is worn and within 12 months of the date of purchase. The cost of any other state, local, and disposal fees and applicable taxes is payable by the member.

When more than 2/32nds of an inch of original tread has been worn or after 12 months from date of purchase, the member must pay the cost of a comparable new passenger or light truck tire on a pro-rata basis. The replacement charge will be determined by multiplying the percentage of the original usable tread worn, by the current Sam's Club selling price. Tire installation charges, other fees and applicable taxes are payable by the member.

2. Treadwear

A tire, which is worn evenly across the tread down to 2/32nds of an inch or less prior to delivering the warranted mileage, and which has not exceeded the warranty timeframe specified by the tire manufacturer, is eligible for an adjustment credit based on the difference between the actual mileage delivered vs. the warranted mileage. Tire installation package charges are applicable on the replacement product.

PREMIUM TIRE INSTALLATION PACKAGE (Sam's Club Membership Benefits)

The Sam's Club Premium Tire Installation Package provides the original purchasing member with the following non-transferable benefits and services, applicable only to the vehicle the tires were originally installed on, **for as long as they retain an active Sam's Club membership**, for a period not to exceed four years from the date of purchase.

- Initial tire mounting.
- New valve stem – if applicable (only for vehicles without Tire Pressure Monitoring Systems (TPMS)).
- Lifetime Tire Balance and Rotation: Sam's Club will, upon the member's request, rotate and/or re-balance the covered tire(s) for the usable life of the tire(s) (until 2/32nds or less tread remaining).
- Lifetime Tire Repair: Sam's Club will repair any puncture meeting Rubber Manufacturers Association (RMA) guidelines for repair on the covered tire at no cost to the member for the usable life of the tire (until 2/32nds or less tread remaining).
- Road Hazard Protection: Expands the workmanship and materials warranty to include tire failure protection on a pro-rata basis for tire(s) injured by a road hazard incurred in **normal driving conditions** (e.g., a non-repairable cut, snag, bruise, impact break or puncture). Non-repairable injuries incurred via vehicle accidents, vandalism, off-road, racing, other specialty applications, or commercial service are not covered. Where replacement of multiple tires is required by the vehicle manufacturer (including, but not limited to, all-wheel drive, four-wheel drive), only the tire(s) injured by a road hazard are eligible for pro-rata replacement. If the installation of additional tires is required to meet the vehicle manufacturer's specifications, the member retains responsibility for purchasing them at full price. In the event replacement tire(s) are needed, tire installation package charges are applicable. All other terms and conditions of the workmanship and materials warranty are applicable.
- Includes no-charge waste tire disposal (additional government tire-related fees, where applicable, remain the responsibility of the member).
- Includes three (3) years, from date of purchase, unlimited emergency tire change service with your **inflated** spare tire.
- Includes TPMS reset during initial installation and subsequent tire services performed by Sam's Club, for the usable life of the tire (until 2/32nds or less tread remaining).
- If member chooses to have TPMS service pack(s) replaced at the time of tire installation as recommended by the manufacturer, or if TPMS sensors must be removed for tire installation or service, the proper TPMS service pack(s) must be charged at the member's expense.
