**Definition 5.4-1** **Future contracts** are essentially exchange-traded forward contracts.

Typical features of futures contracts include:

- ▶ Standardized, with specified delivery dates, locations, procedures
- ▶ A clearinghouse

Matches buy and sell orders

Keeps track of members' obligations and payments

After matching the trades, becomes counterparty

## Differences from forward contracts

- ▶ Settled daily through the **mark-to-market** process
- ▶ Highly liquid: easier to offset an existing position
- ▶ Highly standardized structure
- ▶ Low credit risk
- ▶ There are typically daily price limits.
