

### **Compiling .txt files.**

To compile the file so that you can view it, do the following:

1. Go to “Overleaf” at auburn:

<https://www.overleaf.com/edu/auburn>

then “login with SSO”.

2. Start a new blank project.
3. Meanwhile, download the .txt file to your computer and open it.
4. Copy the entire file to the blank project, paste on top of anything written there.
5. Click Recompile, then the compiled file should appear in a new window on the right next to your “new project.”
